

Improving the data herd one performance “moo-sure” at a time

Results-Based Accountability

This section is an introduction to Results-Based Accountability, a process being utilized for part of the evaluation of the School Health Professional Grant

Results-Based Accountability

In a Nutshell

2 Kinds of Accountability

Population and Performance

3 Kinds of Performance Measures

How Much, How Well, Better Off

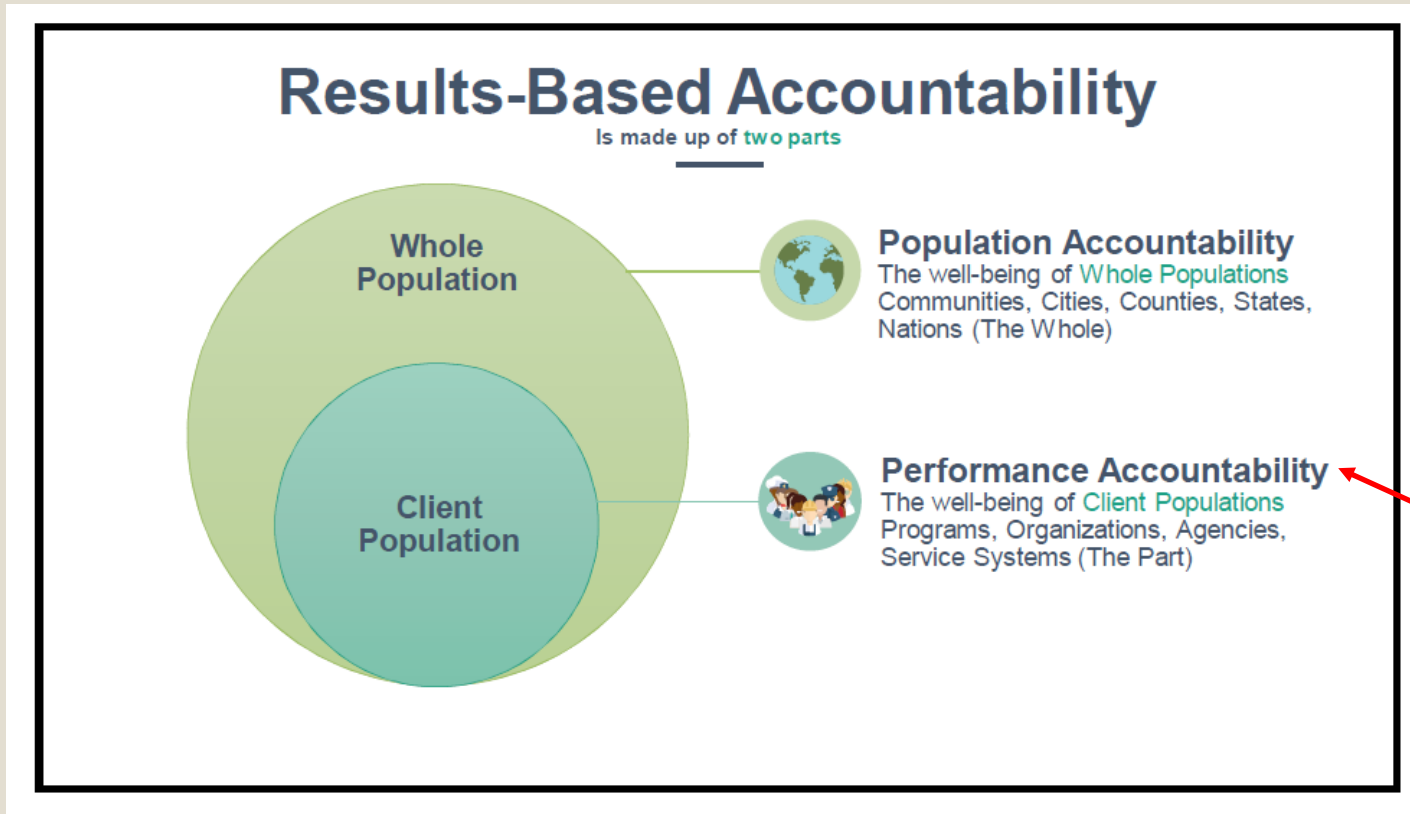

5 Core Questions to Turn the Curve

Baseline, Story Behind the Curve, Partners, What Works, Action Plan

To remember how RBA works, just think “2, 3 and 5.”

Results-Based Accountability

RBA has 2 parts. Your SHPG can immediately impact Performance Accountability (via services, trainings, etc. for students, parents and staff).

Results Based Accountability

START WITH THE END

To improve programs, RBA recommends starting with the “ends” in mind. Start with thinking, “what are the conditions of well-being in schools that you would like to see?” You can then use RBA as a data-driven method to help plan actions to improve your program.

From Ends to Means

From Talk to Action

- Again, start with the “ends”, which will help improve the “means” (e.g., services and supports, trainings, etc.).
- To improve the means, RBA includes a data-driven quality improvement process, which is covered in the Section ‘How to Do Turning-the-Curve Thinking.’

School Health Professional Grant Logic Model

January 2021

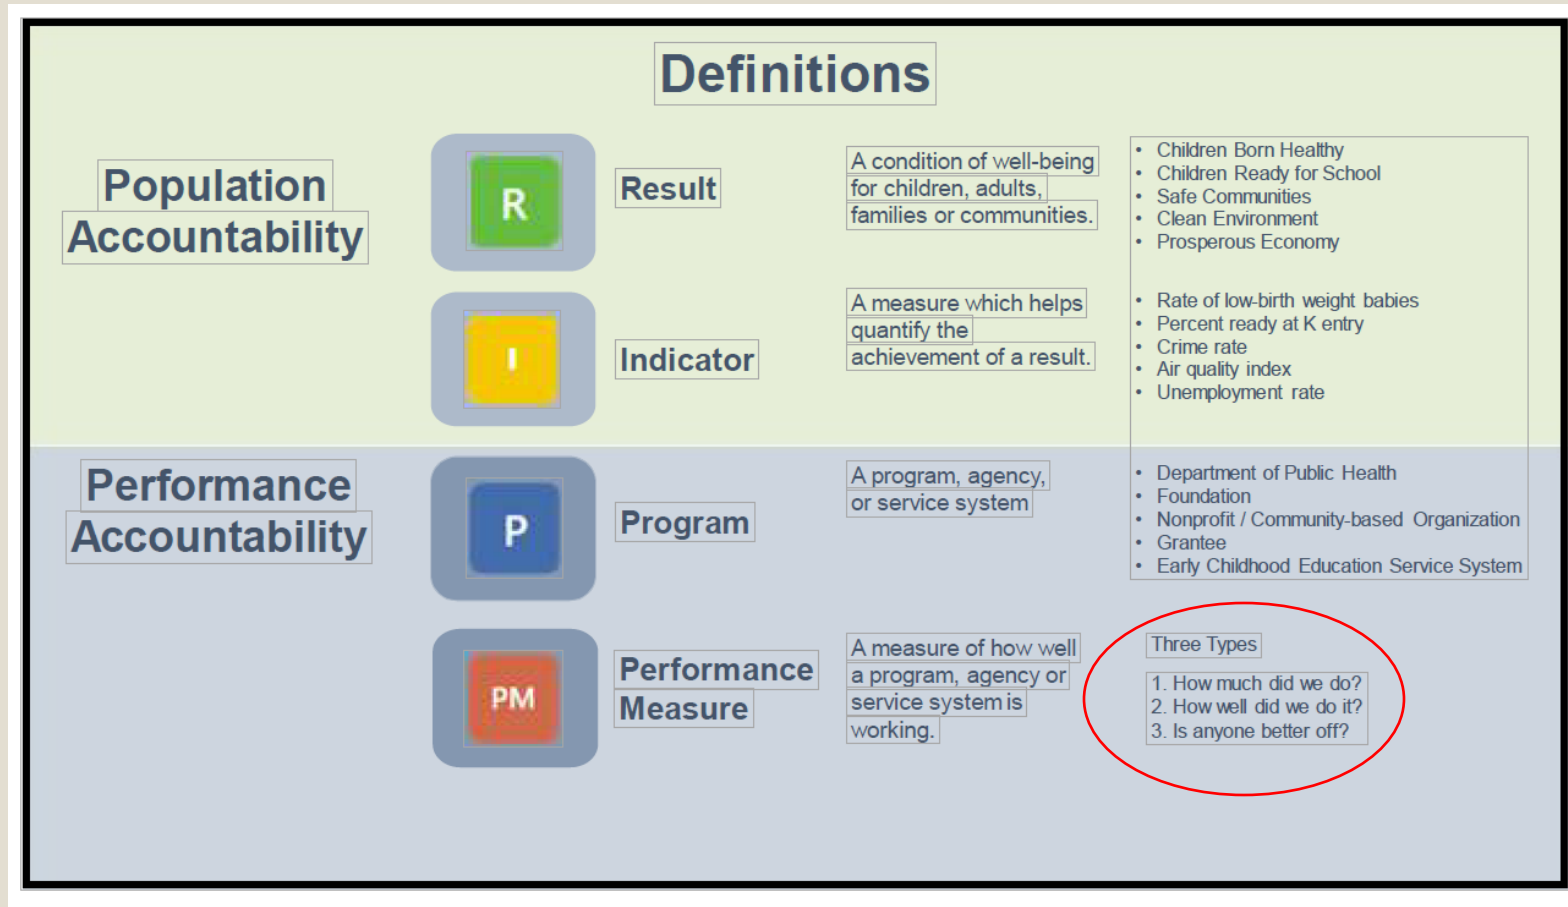

Overarching Goal: All students in Colorado thrive by building their physical, mental, behavioral, and emotional health and are free from substance use

PRIORITIES	INPUTS	GRANTEE'S OUTPUTS		OUTCOMES		IMPACT		
		Strategies	For Whom	Short Term	Medium Term			
<p>Increase the presence of SHPs in schools to provide substance use prevention and behavioral health care to students</p> <p>Implement prevention education and provide evidence-based resources to school staff, students and families</p> <p>Reduce barriers for enrolled students, who are at risk for substance use, to access services provided by community-based organizations for treatment and counseling</p>	<p>Senate Bill 14-215, Article 96, SHPG funding</p> <p>CDE Staff</p> <p>SHPG grantees</p> <p>Comprehensive Health Standards</p>	Hire SHPs to enhance capacity	School staff; school community	Increased number of School Health Professionals* in schools	<p>SYSTEMS LEVEL**</p> <p>Improvements in:</p> <p>Tiered services within MTSS implementation</p> <p>Culturally and linguistically appropriate services</p> <p>Behavioral health referral systems</p> <p>School culture and climate</p> <p>Trauma-informed practices</p> <p>Whole School, Whole Child, Whole Community</p>	<p>Long Term***</p> <p>Increased attendance and decreased truancy</p> <p>Decreased suspensions/expulsion rates</p> <p>Decreased dropout rates</p> <p>Increased graduation and completion rates</p> <p>Improved school culture and climate</p> <p>Engagement in social interpersonal relationships (SEL)</p> <p>Lower rates of students who report suicide attempts/bullying</p> <p>A sustainable and replicable school-based system for supporting the promotion, education, intervention, and treatment of youth behavioral health</p>		
		Enhance behavioral health knowledge, literacy/capacity through professional development					K-12 Students and families in SHPG funded schools	Improved behavioral health programs and curriculum that include Social-Emotional Learning (SEL)
		Enhance school culture and climate						Improved knowledge of behavioral health among school staff, school-aged youth and families (and communities)
		Increase awareness, reduce stigma, reduce barriers, and promote positive behavioral health	Improved access to behavioral health resources, training, interventions, services and supports					
		Enhance evidence-based programs, services and supports	Enhanced school-family-community partnerships for behavioral health					
		Administer a BH/MH screener	Sustain the goals and objectives of the plan to achieve the outcomes					
		Improve community collaborations	Sustainable FTE					
		Plan for sustainability						
				SHPG partners				
		Those serviced /supported by SHPG						

The SHPG logic model can provide some guidance. In RBA terms:

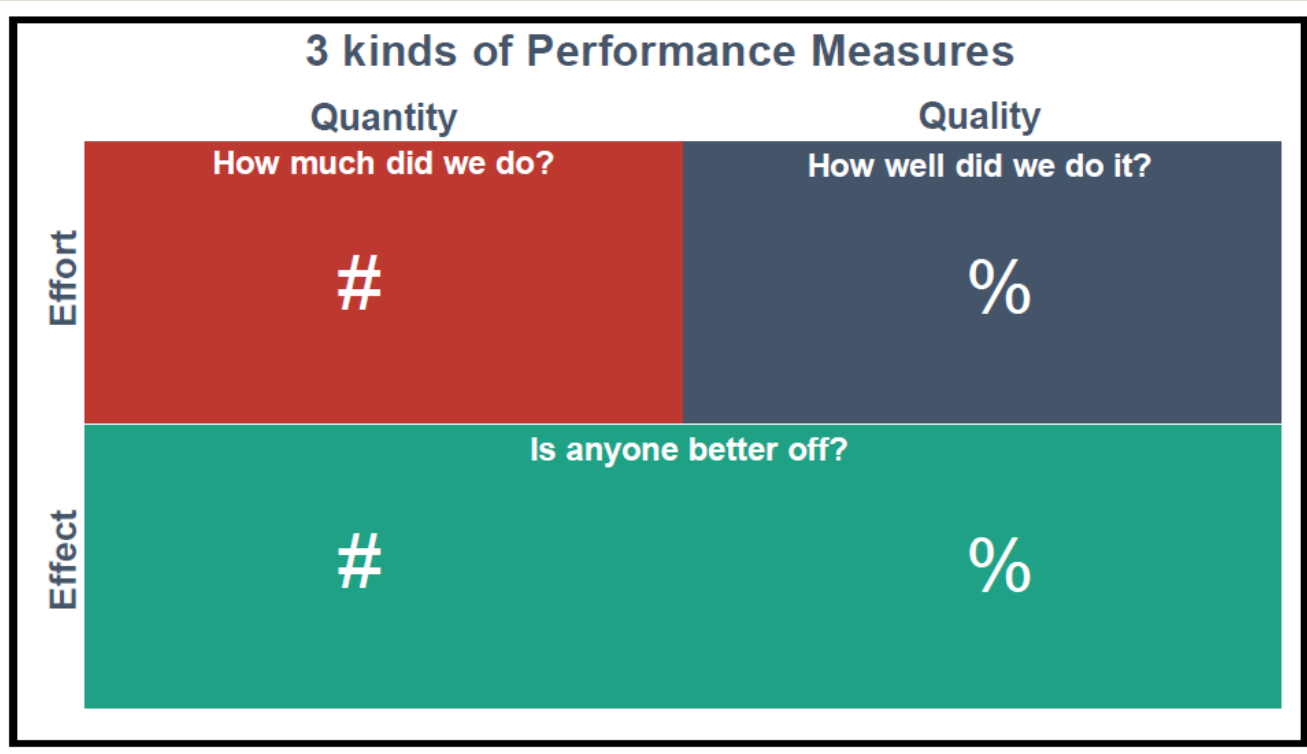

- The “ends” are Student Level Medium-Term Outcomes and Impacts.
- The “means” are Grantee’s Outputs and Short-Term Outcomes.

Results Based Accountability

- Population Accountability is measured using Student Population Indicators
- Performance Accountability is measured using three types of Performance Measures

Results Based Accountability

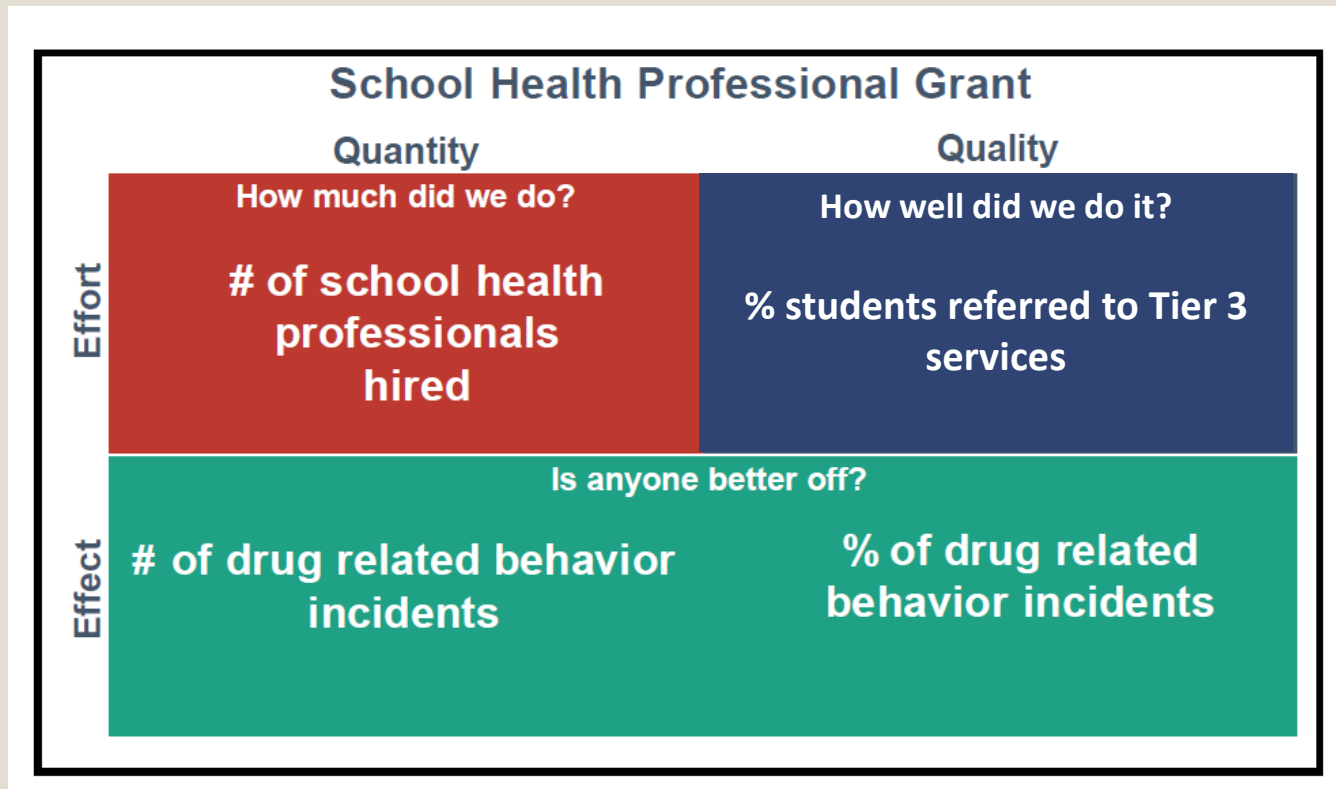

Using easy abbreviations, the 3 kinds of Performance Measures are:

How Much?

How Well?

Better Off?

Results Based Accountability

Here are examples of PMs used in the SHPG's Results Reports organized into the three types- How Much?, How Well? and Better Off?
